

The Return of Nibiru

Nibiru, referred to by NASA as planet X, has returned to our solar system. Not to say that it was ever out of our solar system, but most modern-day scientists did not see it, or chose purposely not to mention it until the planet got too close to ignore. Nibiru makes an approximate 3600-year elliptic cycle around the Sun, very slowly in the outer realms of space and then picking up momentum as it approaches Mars and the Earth. That is not terribly good news which is probably why we haven't heard too much about it.

The ancients knew the inhabitants of Nibiru as our ancestors. That's right folks, Nibiru is inhabited and to make matters more interesting, they are our creators! The gods of the bible, who lived to be thousands of years old, are none other than the Nibiruans, otherwise known as the Annunaki. And their feuds are responsible for the current goings-on in the middle east! Gods you wonder? No, war lords, to be more specific. We were made in their image and they were surely imperfect and just as competitive and greedy as the rest of us. But that is not the direction in which I want to take this story. You can read Zecharia Sitchin's Earth Chronicles and latest book, The Lost Book of Enki, for more information. However, history is important so bear with me.

There was one Annunaki, however, who seemed less concerned with power and more concerned with cosmic mysteries and wisdom. That was none other than Thoth. While his father and uncle, Enki and Enlil, battled for power through their sons, and sons' sons, Thoth was calculating the heavens, and keeping Emerald tablets to help with our future transformation. When Thoth was banished from ancient Egypt by his brother Marduk (Ra), son of Enki, his followers left with him and they journeyed to Mesoamerica where he became known as the Winged Serpent, otherwise called Quetzalcoatl.

He had the codes to start new life, as did his father, Enki, and he was responsible for creating yet another race of humans on Earth (if not more than that). Because most of the Mayan sacred texts were destroyed by incoming Catholic zealots, most of the information regarding the Mayans and Quetzalcoatl was lost. But as new tablets are being discovered on the other side of the world and the surrounding area that give us more information about our cosmic ancestors, a prophecy assures us that after a sudden earth shift, some buried information will appear in the Yucatan that fills in the missing pieces about the civilization that was founded by Quetzalcoatl, thrived, and then suddenly disappeared.

What can we expect as Nibiru approaches this planet? Whenever Nibiru approaches our inner solar system there is cosmic turbulence to the point of major devastation on the planet. The prophecies and warnings that are written of in the bible refer to none other than the return of the planet Nibiru. And the rapture is none other than the transformation of those of us who are worthy enough to either be airlifted until the changes end, or move into a parallel Earth dimension as the Mayans have prophesized, which only happens every 26,000 years, and which will happen this time, at approximately the same time as the Earth gets pulled into a cyclical gravitational nightmare and cosmic bombardment.

There will be a lot of UFO activity, our illustrious governments may finally decide to give us some kind of warning although don't count on it. There may finally be some type of disclosure about our celestial visitors and possibly even a confession about our heritage. In fact, ironically, this could come from the Vatican, when the Pope is on his deathbed. But definitely, if you see our governments and the Vatican suddenly bailing ship, you might want to ready yourself spiritually for a shift.

Some of the Annunaki have the welfare of our planet at heart; after all, we are family. But some are only interested in our resources and will use the shift as an opportunity to "fill up", so to speak and leave many stranded. Just as there are good and bad on our planet, so too are there good and bad on Nibiru. Enlil purposely left humans to die during the last great flood (when Nibiru came within our orbit), with the exception of Noah, and they exterminated humans later on with nuclear weapons, but spared Abraham.

However, if Quetzalcoatl, in all his wisdom, continues to live (the Annunaki live 3600 years to our one), he surely will return, as promised, and provide a means for his people to make the transformation. The key is to be aware of what is in the making rather than stay in denial because when the time comes, it will be too late. Nibiru, like it or not, and believe it or not, is on its way and nothing but a nuclear attack can stop it, and I wouldn't put that past our illustrious leaders to follow the sins of their fathers. Of course, that would not resolve the issue on Earth which would still blow due to a chain reaction.

Stay attuned, keep the faith, and pay attention to your dreams. Many, with the gene of prophecy, are being awakened and communicated with, and will be guided to safety. Above all else, do not ignore the signs and signals. They are the best indication that you are one of those chosen for this very difficult transition, in which you will be required to help yourself and others shift to safe havens (heavens).
